Two Day National Conference on Indian Knowledge Systems (IKS) in Higher Education

A Step Towards Viksit Bharat
2047

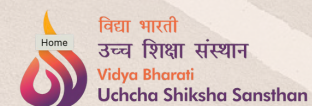

25th and 26th,
February, 2025

Organised by:

Indian Institute
of Information
Technology
Manipur

in collaboration with

Vidya Bharati Uchcha
Shiksha Sanssthan
(Manipur State)

Mode of Conference: Hybrid

About the Conference

The Two Day Conference on IKS aims to explore the significance of the Indian Knowledge System in alignment with the vision of NEP2020 with a particular focus on its subset, Indigenous Knowledge Systems. This conference seeks to engage scholars, educators, and researchers in meaningful discussions on the integration and revitalization of the Indian and indigenous knowledge systems in mainstream education and research towards fulfilling the mission of Viksit Bharat 2047.

The conference is structured around three key themes—Science, Technology, and Literature—which will serve as focal points for interdisciplinary dialogue and exploration. Northeast India's indigenous communities contribute to ecological balance, sustainable agriculture, ethno-medicine, and biodiversity conservation, enriching scientific research. Their innovations in resource management and craftsmanship highlight practical applications of traditional knowledge. Oral traditions and literature further preserve historical consciousness and identity.

This conference emphasizes integrating indigenous knowledge into education and research for cultural preservation and inclusive progress. NEP2020 rightfully and timely gives attention to the Indian Knowledge Systems which will help India step into a higher realm of academic excellence that will usher in a rooted knowledge society.

Call for Abstracts

We invite scholars, researchers, educators, and policymakers to submit abstracts for the upcoming Two Day Conference on IKS. The conference seeks to explore the role of Science, Technology, and Literature in preserving, integrating, and promoting Indian Knowledge Systems (IKS) within contemporary education and research frameworks. Despite NE being the focal point, working papers on diverse areas of IKS are welcome.

Themes of the Conference

Science and Indigenous Knowledge

- traditional ecological practices
- biodiversity conservation
- ethno-medicine
- sustainable agriculture
- indigenous sustainable practices.

Technology and Indigenous Practices

- indigenous innovations in resource management
- traditional technologies and contemporary needs.

Literary and Cultural Narratives

- oral traditions and folklore
- documentation, promotion, and digital transformation of indigenous literature/language
- preservation and digitization of Indigenous art forms & cultural artifacts – Digital media archives

Abstract Submission Guidelines

- Abstracts should be 350-500 words accompanied by a maximum of four key words and clearly outline the research objectives, methodology and key findings or arguments.
- Include a brief author biography (max 150 words) with affiliation and contact details (including a recent passport size photograph)
- Submit your abstract in Doc or PDF format to iksciitmanipur@gmail.com

About the host institute

The Indian Institute of Information Technology Manipur is an institute of National Importance under the Ministry of Higher Education, Govt. of India. Established in 2015 with a vision to develop Manipur as a preferred destination for Information Technology (IT) related manpower and industry, the campus is rightfully located in Manipur, a region which lies at the confluence of three distinct Asian regions; South Asia, East Asia and Southeast Asia.

The campus envisions to serve as a gateway for India to Southeast Asia and East Asia not only in the realm of Information Technology but in building harmonious connections among the diverse communities in terms of language and culture as well. The institute provides an academic space for conducting high-quality Research & Development projects in the field of IT and its related and allied fields.

IIITM offers B.Tech in four programs - Computer Science and Engineering (CSE), CSE with specialization in Artificial Intelligence & Data Science, Electronics and Communication Engineering (ECE), ECE with specialization in Very Large Scale Integrated Circuit, and PhD in CSE, ECE and Humanities and Basic Sciences from its city campus located at Mantripukhri, Imphal. IIITM is one of the 20 IIITs set up by the GoI in PPP mode.

About the co-host organization

Vidya Bharati Uchcha Shiksha Sansthan was established to realize the concepts of quality education. Vidya Bharati aims to establish centers of excellence that blend the ancient with the modern, and the Oriental with the Occidental.

Vidya Bharati's programs and activities are rooted in society and shaped by its ethos, with a commitment to holistic personality development by fostering knowledge, skills, and motivation in students based on Indian educational philosophy. It has been running Saraswati Shishu Vatikas, Saraswati Shishu Mandir, Saraswati Vidya Mandir, and Senior Secondary Schools. 25 teacher training colleges are there for producing skilled and efficient teachers along with 40 Degree Colleges.
