2. Preamble:

The Art of Living (TAOL) is a charitable trust bringing in transformation in India through The Art of Living Programs and implementing a broad range of service projects to uplift and empower individuals, families, and communities so that the full potential of human life can be expressed. The goal is to enable more and more people in urban as well as rural India to become stress-free and inspire these individuals to become change agents to alleviate poverty, misery, and disease right up to the smallest unit of a village.

b

interaction with academia and Information Technology (IT) industry as well as technology development in the area of national importance.

3. The Objective:

The 'Partners', decided that it was mutually beneficial to have a formal understanding between them in sensitizing the students of the institution about TAOL Programs.

The purpose of education is to prepare a person for life. To an experienced educationist, it is a well-known fact that the age group of 18-30 years is extremely crucial. This is the age where issues of career, relationships, peer/parental pressures, and anxiety about the future all come to the fore simultaneously. For youth bogged down by these issues, academic/professional performance and development to their full potential suffers. Neither at home nor at school, have we been taught how to deal with our stress and negative emotions.

WHO defines Life Skills as 'the abilities for adaptive and positive behaviour that enable individuals to deal effectively with the demand and changes of everyday life.' The Art of Living programs are specially designed to develop the Knowledge Aspects which the New Education Policy (NEP) 2020 refers to - soft skills such as communication, discussion, debate, teamwork, social and moral awareness.

This partnership between **IIIT-MN** and **TAOL** aims to train students in the above knowledge aspects to give students a holistic, multi-disciplinary & value-based education via TAOL's tried and tested student development programs to develop all capacities of human beings - intellectual, aesthetic, social, physical, emotional, and moral in an integrated manner.

i) Programs offered by TAOL:

TAOL will conduct the following program at **IIIT-MN**:

The Art of Living Mind Management and Life Skills Training Program for the students aged 18+

ii) Program Content:

The Art of Living Mind Management and Life Skills Training Program
for the students

The program is designed to prepare students in higher education to **face challenges with strength and integrity**. It provides the skills they need to

set and **achieve goals**, and **perform to their full potential**.

The modules in the program combine **mind-body practices** with interactive discussions, **experiential processes** and are proven to improve the overall performance of youth by **enhancing their memory & concentration**, **interpersonal skills** and ability to perform under pressure.

Both the partners have thus arrived at an understanding as indicated below:
